

Sl. No.	Paper ID	Title
1	5	Distance Invariant RGB-D Object Recognition Using DSMS System
2	7	Securing Face Recognition System using Blockchain Technology
3	12	Mining Composite Fuzzy Association Rules among Nutrients in Food Recipe
4	13	Placing Query Term Proximity in Search Context
5	14	Evaluation of Multiplier-less DCT Transform using In-exact Computing
6	16	Single Look SAR Image Segmentation Using Local Entropy, Median Low-Pass Filter and Fuzzy Inference System
7	25	A Hybrid Symmetric Key Cryptography Method to Provide Secure Data Transmission
8	32	Trust-Based Detection of Malicious Nodes for Wireless Mesh Networks
9	36	Legal amount recognition in Bank cheques using Capsule Networks
10	41	Log Periodic Power Law Fitting on Indian Stock Market
11	43	Evidence Building for Ad Click or Web Access on Cloud
12	47	A Simple Algorithm for Estimating Respiration Rate From Photoplethysmographic Signals
13	50	An edge detection and sliding window based approach to improve object localization in YOLOv3
14	51	Phonemes: An explanatory Study Applied to Identify a Speaker
15	53	Nutritional Status Prediction in Neonate using Machine Learning Techniques: A Comparative Study
16	55	Handwritten Bengali Character Recognition using Deep Convolution Neural Network
17	56	Automatic Detection of Pneumonia from Chest X-Rays using Deep Learning
18	57	Lexical Feature based Feature Selection and Phishing URL classification using Machine Learning Techniques
19	59	Identifying Fake Profile in Online Social Network: An Overview and Survey
20	60	Feature Selection Using PSO : A Multi Objective Approach
21	63	An Empirical Study to Predict Myocardial Infarction Using K-Means and Hierarchical Clustering
22	64	An Improved Accuracy Rate in Microaneurysms Detection in Retinal Fundus Images using Non-Local Mean Filter

Sl. No.	Paper ID	Title
23	67	A Robust Technique for End Point Detection under Practical Environment
24	70	Emotion Recognition from Periocular Features
25	71	An Explainable Machine Learning Approach for Definition Extraction
26	72	Construction of Parallel Corpus For English-Mizo Machine Translation System
27	73	A Comparative Study of Computational Intelligence for Identification of Breast Cancer
28	78	Segmentation of Blood Vessels from Fundus Image using Scaled Grid
29	79	An efficient graph based trust-aware recommendation system
30	81	Sclera Based Human Feature Recognition Process using CNN
31	82	Optimization of Local Ordering Technique for Nearest Neighbour Circuits
32	85	Security Analysis of MITM Attack on SCADA Network
33	94	Head Pose Estimation of Face: Angle of Roll, Yaw, and Pitch of the Face Image
34	99	Attention-based English to Mizo Neural Machine Translation
35	104	A Large-Scale Investigation to Identify the Pattern of App Component in Obfuscated Android Malwares
36	106	Enhancing and Classification of Traffic signs using Deep Convolutional Neural Network
37	107	In Depth Analysis of Lung Disease Prediction Using Machine Learning Algorithms
38	109	Diabetic Retinopathy Detection on Retinal Fundus Images using Convolutional Neural Network
39	112	Medical Image Fusion Based On Deep Decomposition and Sparse Representation
40	118	Improving the accuracy of prediction of heart disease based on machine learning and feature selection techniques
41	120	Rice Plant Disease Detection and Classification using Deep Residual Learning
42	121	An AHP-TOPSIS based framework for the selection of node ranking techniques in complex networks
43	123	Convolutional Neural Network Based Sound Recognition Methods for Detecting Presence of Amateur Drones in Unauthorized Zones
44	124	Comparison of different decision tree algorithms for predicting the heart disease

Sl. No.	Paper ID	Title
45	126	Dynamic Speech Trajectory based Parameters for Low Resource Languages
46	133	Identify the current state of Alzheimer disease and predict its evolutionary stage from gene and other biomarkers using 'Machine Learning' techniques
47	134	Solving Quadratic Assignment Problem using Crow Search Algorithm in Accelerated Systems
48	137	Speech Signal Analysis for Language Identification using Tensors
49	139	Effective Removal of Baseline Wander from ECG Signals: A Comparative Study
50	141	Flood detection using multispectral images and SAR data
51	142	Permission based Access Control for Healthcare Systems
52	145	Face Recognition Based on Human Sketches Using Fuzzy Minimal Structure Oscillation in the SIFT Domain
53	146	Security Enhancement of IoT based Smart Home using Hybrid Technique
54	147	5W1H-based Semantic Segmentation of Tweets for Event Detection using BERT
55	148	Handwritten character recognition using KNN and SVM based classifier over feature vector from Autoencoder
56	149	A ConvNet based Procedure for Image Copy-Move Forgery Detection
57	152	A novel invisible watermarking approach for double authentication of image content
58	155	An Ensemble Model for Predicting Passenger Demand Using Taxi Data Set
59	156	Sarcasm detection in tweets as contrast sentiment in words using machine learning and deep learning approaches.
60	157	A novel approach to synthesize Hinglish text to English text
61	158	Insider Threat Detection based on User Behaviour Analysis
62	162	Layer-2 performance analysis of LTE-A and HetNets for 5G Networks
63	163	Neural Abstractive Text Summarization
64	164	Placement issues in Network FunctionVirtualization
65	171	HRV Signal Feature Estimation and Classification for Healthcare System based on Machine Learning
66	176	Performance analysis of Deep Convolution Network models for Remote sensing Signature classification

Sl. No.	Paper ID	Title
67	177	Buddhist Hasta Mudra Recognition using Morphological Features
68	178	Fraud Detection in Credit Card Data using Machine Learning Techniques
69	182	Personal Health Train on FHIR: a privacy preserving federated approach for analyzing FAIR data in healthcare
70	186	Res-VGG : A Novel Model for Plant Disease Detection by Fusing VGG16 and ResNet Models
71	188	A Novel Graph Based Approach To Predict Man Of The Match for Cricket
72	189	Image Compression using Deep Learning based multi-structure Feature map and K-means Clustering
73	190	A Novel Algorithm for Salient Region Detetction
74	191	Building Detection from Satellite Aerial Images using Thresholding, XOR, and Morphological Operations
75	193	Construction of identity based signcryption using learning with rounding
76	194	Deep Detection Of Anomalies In Static Attributed Graph
77	198	Performance Analysis of Feature Detection and Description (FDD) Methods on Accident Images
78	202	Analyzing the linguistic structure of questions to make unanswered questions answered
79	204	Exploiting Topic Modelling to Classify Sentiment from Lyrics
80	209	CrGeESCC: Crucial Gene Identification for Esophageal Squamous Cell Carcinoma Using Differential Expression Analysis
81	210	Image authentication using tensor decomposition and local features with geometric correction
82	211	Applicability of Structured and Unstructured Communication Techniques in Emergency Environment
83	213	Effect of Filtering in Big Data Analytics for Load Forecasting in Smart Grid
